ELECTRIC WIRE ROPE HOIST

BMG SERIES EUROPEAN

CODEMA

Multi-product + Advanced Technology + System Solution

CODEMA sets high quality products and advanced technology in one, in addition to the lifting industry experts and experience A wealth of engineers; It also offers a wide range of products and safe and reliable system solutions. And to best serve our customers.

Multi-product + Advanced Technology + System Solution

CODEMA sets high quality products and advanced technology in one, in addition to the lifting industry experts and experience A wealth of engineers; It also offers a wide range of products and safe and reliable system solutions. And to best serve our customers.

BMG SERIES EUROPEAN ELECTRIC WIRE ROPE HOIST

LIFTING DRIVE UNIT

- High-performance , large driving force and compact structure.
- Various components are running efficiently to ensure high efficiency.
- Low energy consumption, low noise and eco-friendly design.
- Smooth running, low impact, safe and reliable.
- No-wear design, long service life.
- Electrical connection sustained rate is up to 60% to meet the demands of the high frequency lifting.
- Service life to asbestos-free brake can be up to one million times.
- High protection grade of brake can meet the requirements of severe environment.

							
TROLLEY DRIVE UNIT	LCD WEIGHING INDICATOR	ROPE GUIDE	WIRE ROPE WITH HIGH-PERFORMANCE	DRUM	LIFTING HEIGHT LIMITER	LIFTING HOOK GROUP	ELECTRIC CABINET
• Trinity of high-performance motor, reduction gearbox and brake. • Compact structure, excellent performance. • Low energy consumption, low noise and eco-friendly design. • Variable frequency control, smooth running, low impact and meeting requirements of a variety of speed. • Asbestos-free brake disc and its normal service life can be up to one million times. No-wear design, maintenance-free, long service life.	• LCD display lifting weight, showing overload situation, be clear at a glance.	• Light weight, good wear resistance, to reduce the wear of wire rope effectively. • Prevent wire rope from skipping and losing to off-groove and safety first.	• The imported wire rope of high performance with tensile strength up to 2160MPa. • The surface with galvanized processing for corrosion prevention effectively. • With good flexibility to ensure wear resistance of the wire rope and prolong its service life.	• Use the Q345 type seamless steel tube as raw material and process it by numbers of working procedure. • Advanced processing methods to ensure concentricity of the drum. • The depth of rope groove is in compliance with the FEM standard. • High-strength pressing plates and bolts are fastened on the end of the wire rope to ensure the safety of lifting...	• Freely adjustable screw lifting height limiter with high precision, wide adjustment range, safe and reliable. • Multiple-contact configurations can effectively achieve the function of transition with low and high speed and the stop during the rise and fall.	• DIN standard of lifting hook with safety clasp and wire rope sheath ergonomic design. • Forged by the high-strength material of T grade. • Accompanied with nondestructive test certification of lifting hook randomly.	• Rational design, convenient maintenance, decreasing running cost. • Professional and high quality of electrical components, safe and reliable. • Multiple safety protection devices to ensure equipment safe. • Protection grade IP55.
